Member Type Eligibility

Type 1-2 Corporation Members: Corporations with more than 50 people. Corporate organisations will nominate the employees they want to pay for at the start of the year and provide all names and email details via the manual invoicing process. If a Corporate member leaves that organisation during the financial year, the member loses their corporate membership status and it will be their responsibility to change their details on the NAWIC website. They may renew as an individual or with their new employer as a corporate member if nominated. Additional corporate members that are added during the year are invited to join via going into the NAWIC website and seek reimbursement through the company unless the organisation requests an invoice via the NAWIC office. No refunds or transfers will be provided.

Type 3 – Businesses with less than 50 people

Individual – a person that pays for their own membership.

Student / Apprentice: anyone participating in an apprentice program or a part-time or full-time student.

Subscriber / Non-member – those who would like to receive the communication of NAWIC and engage with the organisation but not become a member.
